

REPORT ON ACCESS WORKING CAPITAL

FACILITATING KOABANAMU COOPERATIVE MEMBERS TO ACCESS WORKING CAPITAL.

Prepared by :

MUNYANEZA Oscar

Field Officer/ SAFE

June, 14, 2023

Background

On 14th June, 2023 at 10:00am. Mugesera sector, SAFE together with local government entity has provided small livestock (goats) to 31 members of KOABANAMU cooperative. It's an ongoing activity of Supporting Small holder farmers to convert into organic pineapple farming in Ngoma District project. where the project aims to facilitate KOABANAMU members access working capital.

As mentioned by project coordinator, he said 'dear farmers today we are here with your local authority to give you these goats and we want you to take care of them so that they could benefit you as we wish to and your family. Those goats will be a source of organic manure which will be used in your farm especially in pineapple growing as well as. As we all know goats are rapidly reproductive animals once you take care, they will be multiplied.

Local authority representative also on his remarks reminded that livestock is a source of food and manure, manure from those goats will be used on your kitchen garden so you will have healthy vegetables for your family. This small livestock will help the farmers not only for getting organic manure but also will generate income to them. The objective of this activity was to support beneficiaries to access working capital by providing small livestock (goats) by increasing household income.
